NOTICE OF INTENT TO ADOPT A NEGATIVE DECLARATION

This form is provided as a notification of an intent to adopt a Negative Declaration which has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Use Permit filed by Velocitel (AT&T Wireless)

PROJECT DESCRIPTION AND LOCATION (APN):

Application for a Use Permit on a 23,914 square-foot site to allow the co-location of six panel antennas on an existing 90-foot monopole and associated ground equipment. The property is located at **1259 Birchwood Drive** on an M-S (Industrial & Service) Zoning District. (APN: 104-29-003)

WHERE TO VIEW THIS DOCUMENT:

The **Negative Declaration**, its supporting documentation and details relating to the project are on file and available for review and comment in the Office of the Secretary of the Planning Commission, City Hall, 456 West Olive Avenue, Sunnyvale.

This **Negative Declaration** may be protested in writing by any person prior to 5:00 p.m. on **Tuesday**, **July 20, 2004**. Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a **Negative Declaration** will be considered by the adopting authority, whose action on the protest may be appealed.

HEARING INFORMATION:

A public hearing on the project is scheduled for:

Monday, July 26, 2004 at 8:00 p.m. by the Planning Commission in the Council Chambers, City Hall, 456 West Olive Avenue, Sunnyvale.

TOXIC SITE INFORMATION:

(No) listed toxic sites are present at the project location.

Circulated On June 30, 2004 Signed: June 30, 2004 Serri Caruso, Principal Planner

Attachment 3 Page 2 of 23

NEGATIVE DECLARATION

This **Negative Declaration** has been prepared in compliance with the provisions of the California Environmental Quality Act of 1970, as amended, and Resolution #193-86.

PROJECT TITLE:

Application for Use Permit filed by Velocitel (AT&T Wireless)

PROJECT DESCRIPTION AND LOCATION (APN):

Application for a Use Permit on a 23,914 square-foot site to allow the co-location of six panel antennas on an existing 90-foot monopole and associated ground equipment. The property is located at **1259 Birchwood Drive** on an M-S (Industrial & Service) Zoning District. (APN: 104-29-003)

FINDINGS:

The Director of Community Development of the City of Sunnyvale, California, hereby determines that an environmental impact report is not required. There are sufficient environmental controls incorporated into the Zoning and Subdivision regulations to ensure no significant detrimental effect by any proposed use, in the case of a PD overlay or any application for a Use Permit.

The above determination is based upon the initial study conducted in this matter, information provided by the applicant in an "Application for Environmental Clearance" that the use is in keeping with and not in conflict with the adopted General Plan, Zoning Ordinance and Subdivision Ordinance. The use is specifically permitted by a Use Permit and site and architectural control will be exercised by the Planning Commission. No endangered species are known to depend on this site for habitat.

This **Negative Declaration** may be protested in writing by any person prior to 5:00 p.m. on **Tuesday, July 20, 2004**. Such protest shall be filed in the Department of Community Development, 456 W. Olive Avenue, Sunnyvale and shall include a written statement specifying anticipated environmental effects which may be significant. A protest of a Negative Declaration will be considered by the adopting authority, whose action on the protest may be appealed.

Circulated On June 30, 2004	Signed: (Music Gerri Garuso, Principal Planner
Adopted On	Verified: Gerri Caruso, Principal Planner

De Minimis Impact Finding

E11779

PROJECT TITLE/LOCATION (INCLUDE COUNTY):

The Use Permit is located on 1259 Birchwood Drive, City of Sunnyvale, County of Santa Clara in an M-S (Industrial & Service) Zoning District. APN: APN: 104-29-003

PROJECT DESCRIPTION:

Application for a Use Permit on a 23,914 square-foot site to allow the co-location of six panel antennas on an existing 90-foot monopole and associated ground equipment. The property is located at **1259 Birchwood Drive** on an M-S (Industrial & Service) Zoning District. (APN: 104-29-003)

FINDINGS OF EXEMPTION:

- 1. This project is in an urban setting.
- 2. There is no alteration of land or effect on fish or wildlife.

CERTIFICATION:

I hereby certify that the public agency has made the above finding and that the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

Project #: 2004-0471 UP_ Project Address: 1259 Birchwood Drive, Sunnyvale, California Applicant: Howard Yee (Velocitel - AT&T Wireless) E11779 ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED: The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages. Aesthetics Hazards & Hazardous Public Services θ Materials Hydrology/Water Agricultural Resources Recreation Quality Land Use/Planning Transportation/Traffic Air Quality θ θ Biological Resources Utilities/Service Mineral Resources θ Systems Mandatory Findings of Cultural Resources Noise 0 θ θ Significance Geology/Soils Population/Housing θ DETERMINATION: (To be completed by the Lead Agency) On the basis of this initial evaluation: I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE Χ DECLARATION will be prepared. I find that although the proposed project could have a significant effect on the environment, there will not be a θ significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared. I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL Α IMPACT REPORT is required. I find that the proposed project MAY have a "potential significant impact" or "potentially significant unless θ mitigated" impact on the environment, but at least one effect (1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and (2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. I find that although the proposed project could have a significant effect on the environment, because all θ potentially significant effects (a) have been analyzed in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required. E11779

EVALUATION OF ENVIRONMENTAL IMPACTS

- 1) A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g. the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- All answers must take account of the whole action involved, including off-site as well as on-site, cumulative as
 well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be significant. If there are one or more "Potentially Significant Impact" entries when the determination is made, an EIR is required.
- 4) "Negative Declaration: Potentially Significant Unless Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section 17, "Earlier Analysis," may be cross-referenced).
- 5) Earlier analysis may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration. Section 15063 (c) (3) (d). In this case, a brief discussion should identify the following:
 - a. Earlier Analysis Used. Identify and state where they are available for review.
 - b. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project
- 6) Lead agencies are encouraged to incorporate into the checklist references to information sources for potential impacts (e.g. general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.
- Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.
- 8) This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The analysis of each issue should identify: (a) the significance criteria or threshold used to evaluate each question; and (b) the mitigation measure identified, if any, to reduce the impact to less than significance.

Er	ivironmental Division Public Works Department Check	dist (1 of 1	1)			
	YDROLOGY AND WATER QUALITY. Would the project: Violate any water quality standards or waste discharge requirements?	θ	θ	θ	X	25, 111, 112
b)	Substantially degrade groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	θ	θ	θ	×	111, 112
c)	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	θ	θ	θ	×	24, 25, 87, 111, 112
d)	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or surface runoff in a manner which would result in flooding on- or off site?	θ	θ	θ	×	24, 25, 87, 111, 112
e)	Create or contribute runoff which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	θ	θ	θ	X	2, 24, 25, 87 111, 112
f)	Otherwise substantially degrade water quality?	θ	θ	Θ	×	24, 25, 87, 112
g)	Place housing within a 100-year floodplain, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	θ	θ	θ	×	2, 56
h)	Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	θ	θ	θ	×	2, 56, 111, 112
i)	Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	θ	θ	θ	X	2, 56, 111, 112
j)	Inundation by seiche, tsunami, or mudflow?	θ	θ	θ	X	2, 111
